EDUCATION

University College of Engineering, BIT Campus, Trichy

B.Tech in Information Technology, Expected Apr 2025

Cum. GPA: 7.51/10

Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management

NSN Memorial School (CBSE), Chennai

Senior Secondary (12th)

Percentage: 93%

2020-2021

SKILLS

Web Application Design	Prototyping	Django, Python	AI Integration
UI/UX Design Development	Wireframing	Database Management: MySQL	Visual Basic 6.0
	HTML, CSS, Bootstrap		

INTERNSHIP EXPERIENCE

1. GB Tech Corp | Chennai, Tamil Nadu | July 2024 - August 2024

Spearheaded the development of a cutting-edge digital marketing agency platform, seamlessly integrating artificial intelligence using the Python and Django frameworks. Demonstrated proficiency in leveraging advanced technologies to deliver a robust, user-centric solution.

Tech stack: Python, Django Frameworks

2. Pixel Expert | Chennai, Tamil Nadu | 03 July 2023 - 15 July 2023

Orchestrated the development of multiple foundational website models, showcasing innovative design and functionality. Engineered sophisticated login forms using Visual Basics 2021.net, and executed a comprehensive, full-time organized project with meticulous precision.

Tech stack: HTML, CSS, JavaScript, Visual Basics

WORKSHOP/SEMINAR | Feb 2023 - Present

IIT Madras Research Park-Chennai:

- Engaged in a workshop on AI - Image Processing in Python, acquiring advanced skills in image recognition and analysis.

National Level Seminar:

- Participated in a seminar on AI - Image Processing using VLSI Design, exploring cutting-edge techniques in image processing.

Great Learning:

- Mastered UI/UX design fundamentals through a beginner's course, gaining expertise in design principles, wireframing, and user-centered design.

PROJECTS

Digital Marketing Agency Website*

- Developed a state-of-the-art digital marketing platform integrated with OpenAI, enabling real-time user interaction.
- Leveraged Python and Django to build a robust backend, ensuring seamless AI integration and optimized data management.

Blood Bank Management System*

- Created a comprehensive Blood Bank Management platform using Visual Basics, ensuring data integrity and streamlined processes.
- Designed a system to manage donor and recipient data, track inventory, and automate report generation for efficient oversight.

Wireframing and Prototyping with Figma [CODE 2 COMMUNITY]*

- Designed wireframes and interactive prototypes with Figma, focusing on user-centered design.
- Developed high-fidelity prototypes for testing and refinement before development.
